

PTO Soft Knee Brace

Sizes: xs, s, m, l, xl, xxl

The PTO is designed to align the knee for patients with maltracking or patella tracking conditions. The PTO adjusts the amount of compression applied from the lateral pressure plate by forming a soft tissue wall that controls patellar subluxation.

Common Examples of Use

- Mild chondromalacia
- Patella subluxation
- Patella dislocation
- Patella tendonitis
- Chronic patellar maltracking
- Patellofemoral pain syndrome
- Post lateral release
- Post patellar realignment

Product Features

- Available in Airmesh or neoprene
- Open back or closed back options available
- Available with aluminum high performance hinge bars
- Dynamic Function for normal gait

Category: Patellofemoral.
